ACTOR LIST

1. *In general, an actor can be a person, a group of persons, an institution/organisation or a spokesperson/ representative of it.*

Typically, each specific story actor has his/ her/ its own specific code. There might, however, be cases in which you have to assign the same actor code to two different actors, for example, if there are two different politicians from the same party quarreling with each other.

Every actor gets a five digit code. The first two digits represent the country code. Digits 3,4, and 5 specify the particular actor.

2. *The actor list has three main levels:*

I EU as whole: Here, members of the EU commission, EU parliamentary groups and EU institutions and organisations are coded.

II Actors from EU member countries: Here, any actor from one of the 15 EU countries is coded.

III Actors from Non-EU countries: Here, all actors which do not pertain to I or II are coded.

I. EU as a whole LEVEL: EU commission, EU parliamentary factions and EU institutions/ organisations

For some of the actors, a fifth digit has to be assigned according to whether they are individuals or groups. To assign the fifth digit appropriately for the EU actors, proceed as follows:

1 if the actor is an individual related to the EU

3 if the actor is a group, organisation, institution, country or entity related to the EU

Note: If you have to use one of the “other“-categories, please fill in the “other“-list!

20983	The EU as a whole
2099x	Not identifiable

II. EU MEMBER STATE LEVEL: Actors from EU member countries

For some of the actors, a fifth digit has to be assigned according to whether they are individuals or groups and work an EU or any other level level. To assign the fifth digit appropriately, proceed as follows:

1 if the actor is an individual related to the EU

2 if the actor is an individual related to any other level than the EU (e.g. domestic or the world)

3 if the actor is a group, organisation, institution, country or entity related to the EU

4 if the actor is a group, organisation, institution, country or entity related to any other level than the EU (e.g. domestic or the world)

Examples:

- *A British Labour candidate running for the European Parliament = 1 (an individual related to the EU)'.*
- *A Defence Secretary for Labour = 2 (an individual, not related to the EU)'.*
- *The British Labour candidates running for the European Parliament = 3 (group related to the EU).*
